METALLIC TIPS

DID YOU KNOW?

It is impossible to clean correctly the inside of reusable tips due to the presence of biofilm.(1)

Metallic tip after 1 year use

- **Not effective cleaning** of reusable tips in the long-term.
- **Hygiene maintenance takes time** between two patients.

> *With regard to cleaning and sterilization, disposable tips were found to be more acceptable in clinical use than metal tips.(1)*

Your must-have to perform dental care in a safe and clean environment

- **Save time & money**
  in your daily basis practice
  Single-use
  Avoid cleaning and sterilization steps

RISKONTROL® COMPARED TO REUSABLE TIPS

SAVE **75 %*** WITH RISKONTROL®(3)

*Cost assessment per dental chair for RISKONTROL® and reusable tips use for a one-year period (Considering 1 278 consultations per dental chair on a one-year basis (2016) considering that dentists are following hygiene measures with at least 1 sterilization per day

(3) ML Silva, M. Zumpe, J. Lespinasse, M. Aulois-Griot. Cost comparison of reusable and disposable air/water syringe tips in a large French teaching hospital. Swiss Dental Journal 2017

• Protect your patient

Single-use: reduce the risk of direct or cross-contamination

Minimize the spread of viruses

• Ensure your clinical protection

20 times **less risk** means **more safety and serenity** on a daily basis, for safe care and even more satisfied patients.

must-have

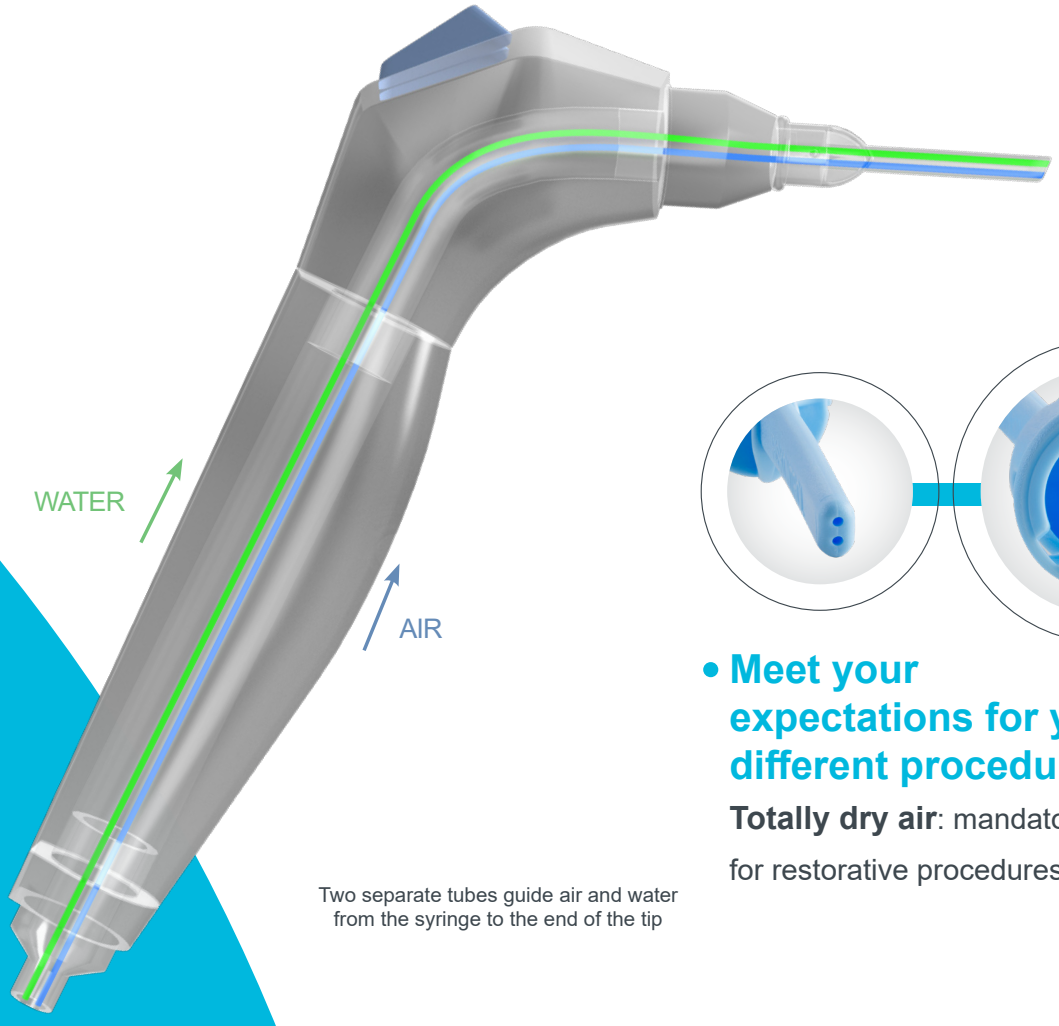

Indispensable in your daily management

• Match with your air/water syringe

RISKONTROL® is an **universal solution** thanks to its adapters.

Two separate tubes guide air and water from the syringe to the end of the tip

• Meet your expectations for your different procedures

Totally dry air: mandatory for restorative procedures

• Avoid risk of ingestion

Safe-locking system:
patented system to protect even more your patient

• Reach easily difficult-to-access areas

and respect the patient's anatomy

Easy to bend: find the ideal curve to reach all areas

Soft and rounded edges for the **patient's comfort**: keeping the lip away from the working area

single use

Guaranteed daily protection

RISKONTROL® tips are suitable to all types of clinical situations

Over the past 25 years, ACTEON® has become a key player on dentistry by focusing on a mutual well-being between patient and practitioner.

RISKONTROL® tips allow to **protect yourself and your patients** for **complete satisfaction.**

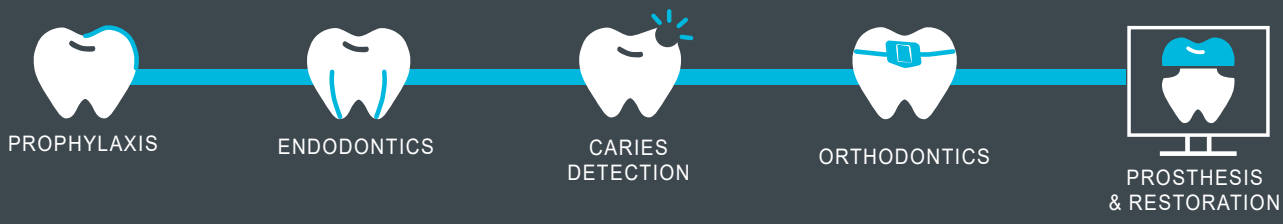

RISKONTROL® is essential for all types of treatment and is a basic element of my technical equipment. Its adaptability provides me with optimal efficacy in all clinical situations.

Dr. Gautier Dupont
France
Dental surgeon

Essential in all Workflows

RISKONTROL® is the **solution** that ensures both practitioners and patients' **protection**, **comfort and safety** in every daily clinical procedure.
